Christmas time again!!

Staff and students were delighted on Monday to find the foyer of our school stacked full of toys and games! Last week the Friends of Wairoa donated three enormous trolley loads of toys and educational games. Thank you so much to Christine, Rob and Joan who spent the day shopping and caused massive queues in K-Mart!

I don’t know who was more excited – the students or the staff!

The wonderful work of the Friends of Wairoa is vital to our school and this is just one example of how this group works tirelessly to support our students and provide rich educational opportunities and resources for them.

Classes for 2014

Many of you will be receiving letters from your class teachers at the moment and I hope you are finding these informative and interesting. I know that some of you have already started booking in times to come up to the school and see the class teachers in order to discuss and plan for your child’s Individual Education Plan (IEP). These meetings are a wonderful opportunity for you to tell us about your child’s strengths and for you to discuss the particular goals you would like your child to work towards. We value the opportunity of working with you and we know that when the school and family work together, student outcomes are much more positive.
